

## Certification of Matching Funds Form

Applicant Information	
Project Title	
Effective Date	
End Date	
PI Full Name	

The applicant agrees to identify and certify matching funds annually prior to disbursement of award funds. At least fifty (50%) of the required matching funds must be a cash match, while the remainder can be in-kind match. The match share is intended to supplement, not supplant existing funding for the principal investigator (PI). The applicant will abide by FFAR's Matching Guidelines to meet FFAR's matching requirements. To constitute a valid match, all matching funds on a FFAR grant must be expended during the grant period.

The PI must submit all required match share reporting documentation thirty days before award funds are disbursed for next year's funding, and ninety days after the end date for last year's funding. All supporting documentation must be done through proposalCENTRAL. The reporting will include uploading documentation demonstrating obligation and use of matching funds equal to use of FFAR award funds for a reporting period. Failure to complete reporting requirements on time may result in withholding, and potentially withdrawal, of future FFAR award payments, or exclusion from consideration of future research proposals.
