A. GETTING STARTED	
Each proposal must include a proposed budget for each year specified in the application. Please enter all project cost estimates in	
U.S. Dollars. If you are using another currency, please include in your budget narrative a detailed explanation of how you determined the exchange rate from your currency to the U.S. currency.	1
1) Review the Formatting and Definitions section below.	
2) Click the Year 1 tab and provide the requested information. Repeat this step by clicking the corresponding annual budget year for	
Year 2, Year 3, Year 4, and Year 5, if applicable to your project.	
3) If your proposal application includes a subaward/contract, complete the Subaward(s) worksheet in this workbook.	
4) Unless otherwise stated in the RFA, FFAR requires a 1:1 match. Applicants can provide more than a 1:1 match, if possible. Please	
complete the Matching Details sheet to show the amount, type, and source of your project's matching funds. Please make sure to	
review our Matching Requirement Guidelines on our website. Matching funds that do not meet the requirement guidelines will not be	
accepted as a match. No under-matching is allowed in Year 1 of the project. In Year 1, matching funds must be equal to or more than	
the Year 1 budget request from FFAR. If there is under-matching in Year 2 and onward, the under-matched amount must be less than	
or equal to a previous over-matched amount. For example, if the budget for Year 3 of the project is under-matched by \$30,000, there	
must be a pre-existing over-match of at least \$30,000 in previous years (Year 1 or Year 2 budget). This is to comply with FFAR's	
authorizing statute that every dollar spent by FFAR is matched 1:1 from a non-federal source. So, providing less match in a budget year	
is only allowed when the applicant has already committed more matching funds in previous years of the project budget.	
5) Review the information in each of the Yellow Tabs for completeness and accuracy. Revise the information as necessary.	
6) Review the information in the Cumulative Budget worksheet to validate your budget information. Information is this worksheet is	
automatically pre-populated from information in the yellow tabs. If you need to revise the information in this worksheet, please make	
your revisions in corresponding yellow tab.

Materials & Supplies: cost of project supplies and services (photocopying, shipping, samples, etc.) specifically related to the proposed project (not general indirect or F&A costs).
Computers & Equipment: cost of computers, peripherals, and other equipment purchased and used for the proposed project (not general indirect costs). Computers & Equipment valued at \$5,000 or more should be listed under "Capital Equipment."
Printing & Publications: cost of producing or purchasing printed materials (books, newsletters, etc.) or electronic media (videos, DVD, etc.) used or produced directly as a part of the proposed project.
Consulting & Professional Fees: amounts paid non-employees retained specifically to complete work for the proposed project.
Conferences, Conventions, Meetings: registration fees for employees or consultants directly working on the proposed projects; costs for meetings or conferences held in conjunction with the proposed project.

**INDIRECT COSTS:** FFAR allows applicants to use up to ten percent (10%) of the total funds requested from FFAR, and up to ten percent (10%) of the required one-to-one institution matching funds towards indirect costs. FFAR's indirect cost allotment is not an indirect cost rate applied to the total modified direct costs but instead it is an overall allotment from the Total Funds Requested, also known as Total Project Costs, to be used for indirect costs by the institution. This means 90% of the total funds requested must go directly to the proposed research.

Example: Say your request (in other words, your total direct cost) from FFAR is \$100,000. Your total project cost is:  $$100,000 \div 0.9 = $111,111.11$ . How is the FFAR F&A policy applied? \$111,111.11 (total project cost) minus \$100,000.00 (total direct cost) = \$11,111.11 (F&A cost). Your total award then is: \$100,000.00 + \$11,111.11 = \$111,111.11. So FFAR's Effective F&A rate is: \$11.11%. This rate also applies to the total committed matching funds. If you want to determine the Total Direct Cost you have to work with, use the following formula: TDC = TPC /1.1111.

No part of your indirect cost can be offered towards your required matching funds. Unrecovered indirect cost, defined as the difference between an award recipient's federally negotiated indirect cost rate and FFAR's ten percent (10%) indirect cost allotment, MUST NOT be offered and will not be accepted as a match contribution.

Unless otherwise specified in the RFA, applicants are required to provide a 1:1 match. Complete the Matching Details worksheet when matching is required, AND when applicants want to volunteer additional funds committed to the project. Applicants who wish to do so can commit more than a 1:1 match for the project. Please see the RFA or our website for FFAR's Matching Requirement Guidelines.
